2. The President, while returning the estimate duly countersigned, has placed at the disposal of the Executive Engineer, Water Supply and Stores Division, the full amount of the estimate, viz., Rs. 3,531 by means of cheques as noted in the margin which procedure will be pointed to be irregular.

I have the honour to be,
Sir,
Your most obedient servant,

Offg. Chief Engineer of Mysore.

Report accompanying the Estimate for W.S. of Harihar Water Works For 1913-13.

12

The estimate for Rs.3531/- provides for maintaining the Harihar Water works during the current year. The provision for the several sub-heads of the estimate is the same as that of last year except an increase of Rs.276/- in the provision for kerosene oil as the rate for it is increased and it was not possible to get hold of a contractor to supply oil for less than this rate though tenders were called for the same.

It is however necessary to have a sinking fund to meet repairs and renewals of the plant and a separate reference is being made regarding same.
